Plant-based foods in Europe: How big is the market?

The Smart Protein Plant-based Food Sector Report

Retail Scanning Data Nielsen
Countries covered in this report

Austria
Belgium
Denmark
France
Germany
Italy
The Netherlands
Poland
Romania
Spain
United Kingdom
**About the data (Nielsen MarketTrack)**

**Market**

**Two metrics:**
- Total for each country, including discount stores.
- Total for just discount stores.

**Countries:** Austria, Belgium, Denmark, France, Germany, Italy, the Netherlands, Poland, Romania, Spain, United Kingdom.

**Time frame**

**Moving annual total (MAT)** per calendar week (CW) for 2018 vs 2019 vs 2020.

Depending on the country, the calendar week varied from CW39 to CW42.

**Facts**

**Sales value** in €.

**Sales volume** in kilograms (Kg) or litres (L), depending on the product.

**Categories**

Plant-based (PB) **meat**, **milk**, **yoghurt**, **cheese**, **ice cream**, and **fish**.

Including subcategories.

Varies according to availability in each country. Not all categories are currently available in all countries.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures. Single digit numbers are rounded to one decimal place. Double digit numbers are rounded to whole numbers. All calculations are based on the underlying unrounded numbers.
Sales value increased by 49% over the past two periods.

Key findings – Denmark

The sales value of plant-based food* grew 29% (£30m) over the past two periods, while sales volume increased by 46% (14m Kg/L). Discount stores recorded similar growth, at 31% (£14.5m) and 43% (7m Kg/L) respectively. Discounters had a high share in terms of sales value, at 48%.

The plant-based food sector is led by plant-based milk (£26m), followed by plant-based yoghurt (£4.7m). Plant-based meat and plant-based yoghurt showed the strongest growth in sales value (both at 16%).

The plant-based-meat sector (£29k) is dominated by plant-based refrigerated prepared dishes (e.g. nuggets, burger patties) (£13k) followed by plant-based frozen prepared dishes (e.g. nuggets, burger patties) (£12k). The segment grew 50% over the last two periods in terms of sales value, with a high discounter share, at 42%.

The plant-based milk market (£26m) is dominated by oat (£14m), followed by soya (£5.3) and almond (£4.5m). Oat has the strongest growth in terms of sales value (26%). Again, a high discounter share in terms of sales value, at 50%.

The plant-based cheese segment (£1410) is still in its early footsteps, with triple-digit growth in discounters over the past two periods.

*Includes plant-based meat (vegan and vegetarian, no dairy-ingredients), plant-based milk, plant-based yoghurt; all numbers refer to MAT CW40 2020 if not stated otherwise

Source: Nielsen MarketTrack
The sales value of plant-based food* grew by 97% (€817m) over the past two periods, while sales volume increased by 80% (310m Kg/L). Discount stores showed even stronger growth, at 114% (€202m) and 92% (101m Kg/L) respectively. Discounters had a 25% share in terms of sales value.

The plant-based food sector is led by plant-based milk (€396m), followed by plant-based meat (€181m). All categories showed double-digit sales growth in sales value in the latest period, with plant-based meat and fish showing triple-digit growth.

In terms of plant-based meat, plant-based refrigerated meat (e.g. burger patties, nuggets, minced) (€123m) is the most developed segment, followed by plant-based cold cuts and meat spreads (€29m). Sales shot up in the latest period, with a triple-digit growth in sales value, especially in discount stores.

In terms of plant-based milk (€396m), oat milk (€184m) had the highest sales value, followed by almond (€82m) and soya (€74m). Oat milk is on fire, especially in the latest period (105%).

The plant-based fish and plant-based cheese segments are both still in their early stages of development, with triple-digit growth in sales value. Plant-based fish products arrived on discounters’ shelves in the last period, for the first time.

*Plant-based meat (only vegan), plant-based fish, plant-based milk, plant-based cheese, plant-based yoghurt, plant-based ice cream; all numbers refer to MAT CW39 2020 if not stated otherwise.
Sales value grew 97% over the past two periods, while sales volume increased by 80%.

Key findings – Italy

The sales value of plant-based food* declined 1% (€425m) over the past two periods, while sales volume increased by 3% (140m Kg/L). Discount stores recorded similar growth rates, at 2% (€73m) and 0% (35m Kg/L) respectively. Discounters had a 16% share in terms of sales value.

The plant-based food sector is led by plant-based milk (€231m), followed by plant-based meat (€111m) and plant-based yoghurt (€43m). Plant-based milk (7%) also had the strongest growth in sales value, followed by plant-based ice cream (5%) and plant-based meat (1%).

The plant-based-meat (€111m) sector is dominated by plant-based meals (e.g. burger patties, nuggets, sausages) (€98m), with remaining sales coming from tofu (€8.0m) and plant-based cold cuts (€5.4m).

The plant-based-milk (€231m) sector is dominated by soya (€87m), followed by rice (€46m) and almond (€44m). Oat had the strongest growth in sales value in both periods (23%).

The plant-based ice-cream (€33m) sector is dominated by multipacks (€22m), followed by household packs (€11m). The sector showed double-digit growth in sales value over the past two periods.

*Includes plant-based meat (vegan and vegetarian), plant-based milk, plant-based yoghurt, plant-based cheese, plant-based ice cream; all numbers refer to MAT CW39 2020 if not stated otherwise.

Key findings – Spain

The sales value of plant-based food* grew by 48% (€448m) over the past two periods, while sales volume increased by 20% (265m Kg/L). Discount stores also showed strong growth, at 35% (€33m) and 37% (31m Kg/L) respectively. Discounters had a 7% share in terms of sales value.

The plant-based-food sector is led by plant-based milk (€318m), followed by plant-based meat (€87m) and plant-based yoghurt (€42m). All categories showed double-digit growth.

In terms of plant-based meat (€87m), almost 90% of sales come from plant-based refrigerated meat (€80m). The remaining sales from plant-based frozen (€3.4m) and ambient meat (€3.1m).

The plant-based milk (€318m) sector is dominated by oat (€125m), followed by soya (€91m) and almond (€57m). Oat showed the strongest growth in sales value growth in the overall market (25%) as well as in discount stores (49%).

Plant-based yoghurt also showed double-digit growth (55%). Discounters had low levels of sales in MAT CW41 2018, increasing strongly in the following two periods.

*Includes plant-based meat (vegan and vegetarian), plant-based milk, plant-based yoghurt; all numbers refer to MAT CW41 2020 if not stated otherwise.

*No discount data available in UK
**Plant-based food categories shown here are the plant-based food categories that were available at the time of purchase.
The sales value of plant-based food* grew by 73% (€750m) over the past two periods, while sales volume increased by 67% (206m Kg/L).

The plant-based food sector is led by plant-based meat (€502m), followed by plant-based milk (€226m). All categories showed double-digit growth, except for plant-based baked goods.

In terms of sales value of plant-based meat (€502m), PB frozen meat (€231m) was outperformed by PB refrigerated meat (€264m) in the last period. Plant-based sausage is the most dominant segment, both in terms of plant-based refrigerated (€53m) and frozen (€50m) meat.

Plant-based milk (107%) and plant-based cheese (165%) both showed triple-digit sales growth in sales value over the last two periods.

Plant-based baked goods (€1.2m) also showed strong growth in sales value over the last two periods (19%), especially plant-based confectionery in the latest period (94%).

*Includes plant-based meat (vegan and vegetarian), plant-based milk, plant-based yoghurt, plant-based cheese, plant-based ice cream; all numbers refer to MAT CW42 2020 if not stated otherwise.
